

SHEAFFERS

Style . . . Beauty . . . Utility

THE SECRET OF PEN SALES SUCCESS

Sheaffer pens earn more profit per dollar invested and per square foot of floor space than any other merchandise — this has been the experience of a great many dealers. Yet in other stores, while the pen department earns excellent profit, it is not the peak profit department. Manufacturers and dealers share responsibility for this condition.

The manufacturer's duty is to make pens that are worth owning, to avoid bringing out features merely for the sake of novelty, to sponsor the store policies that really help dealers, and to adjust his goods to the pocketbook of the public, giving full value in each item for the price asked.

Sheaffer has always led in developing the worthwhile, SALES-MAKING features. These features are sales-making because they really contribute to better performance and greater writing comfort. Sheaffer leads in fostering protective policies, merchandising plans and salesperson-training methods that build sales and obtain for the dealer lasting good-will from the customer. Sheaffer leads in adjusting advertising to America's buying mood and in placing the strongest continuous full page, four-color SELLING advertising in the pen industry. And thus Sheaffer leads all other makes in dollar volume, and therefore in dealer profit, in the United States.

The whole profit winning plan is available to Sheaffer dealers on request —

it remains for the dealer to make use of it for himself.

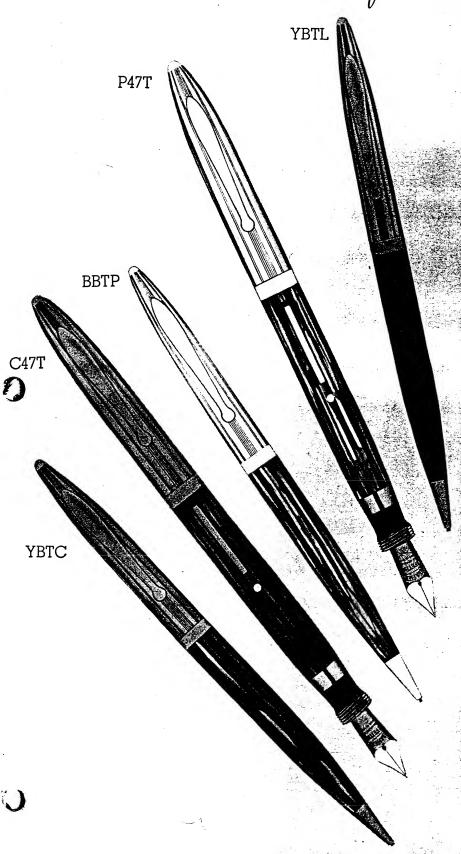

Every item in this catalog is a proven sales success. Each one contains the desirable, sales-making features that gear it to its market and make it a sales success. Only in the Sheaffer line will you find identical values in both one-stroke LEVER and VACUUM types in ALL price ranges - each type the leader in its field. Only the Sheaffer will convey so much pride and pleasure of possession to the owner. Dealers who will whole-heartedly feature a full line of this merchandise, and team up their own sales efforts with the proven sales methods of Sheaffer, including the Merit System outlined in the book enclosed with this catalog. are bound to build good-will and attain peak profit in pens.

If you are enjoying such profit, stay with it, improve it! If you are not, have your Sheaffer representative show you the successful Sheaffer sales methods, or write the factory, and you will!

For Sheaffer's is the finest of all for all who write. Only Sheaffer has all seven of the pen features most desired today, and the Lifetime pen, identified by the White Dot, because of its broad guarantee, is THE WORLD'S LOWEST COST PEN. For Sheaffer dealers and their salespeople this means the simplest sales story behind the finest product of its kind, insuring peak sales and profits.

NOTE: This catalog is dated August 1, 1937. All prices and specifications are, for obvious reasons, subject to change without notice.

Gold and Sterling-Used in a Pen in a Practical Way

In this new line of pens and pencils embodying precious metals, Sheaffer presents a triumph of fountain pen engineering.

For the first time, the richness of natural gold, or the beauty of sterling silver, is combined with the right writing "feel" in a fountain pen. The distinctive splendor of the precious metal shows when pen and pencil are in the pocket, but the comfort of radite where fingers touch is just as apparent when these pens and pencils are being used. The pen barrel where you grip it to write is the material that has been giving writing comfort and satisfaction for

For the first time in fountain pens and matching pencils, there is a flush fitting of the cap and barrel. This is true whether the cap is on or off. The gold and sterling designs have patrician simplicity—therefore extraordinary beauty.

Best of all, this new construction goes a long way toward overcoming the principal difficulty with metal pens of the past, which have been too readily susceptible to damage. First, the lower half of each instrument is made of virtually non-breakable material; secondly, the metal caps are not made by placing a thin metal sleeve on a rubber or pyroxylin base, but by placing the precious metal over a sturdy interior of metal.

The De Luxe Autograph Line

With wide 14k solid gold bands for facsimile signature engraving.

Sheaffer's DeLuxe Autograph pens and pencils are rated as fine pieces of jewelry. Their clips, bands, points and pencil tips are 14K gold. When the owner's signature is placed on the wide band in facsimile engraving, the pen becomes a treasured lifetime possession that may be handed down to the next generation. These are the perfect gifts for those who wish the finest.

Presentation Ensembles

For Every Occasion

Ensembles by Sheaffer provide a logical way to sell a pencil with practically every pen sale, thus increasing the unit-of-sale with a corresponding increase in volume and profit. For the gift market, or for the "personal use" market, no-where else can the finest of its kind be bought for a price so low. Illustrated on this page are typical Sheaffer ensembles from \$3.95 up. Note the beautiful presentation cases, exclusive to Sheaffer, with sets at \$8.50 and up.

For complete price information on ensembles, turn to Pages 9, 10 and 11.

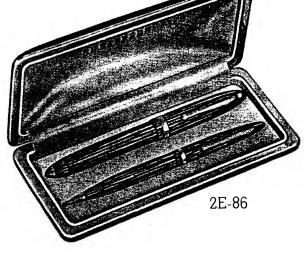

2E86—The new MARINE GREEN streamlined color design is shown here for the first time. Illustrated is a man's set at \$14.00; but the rich satin and gold presentation case is available with ensembles priced at \$8.50 to \$15.00.

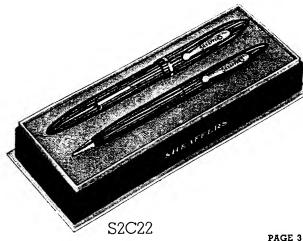

2D37 — Ebonized Pearl is one of the most popular color designs ever developed by Sheaffer. Illustrated is a lady's set in this color, priced at \$8.50. Other sets in this same sating and this same satin and gold presentation case, for both men and women, are available from \$8.50 to \$15.00.

those customers where a saving is very important. A two-piece set purchased in this attractive presentation case affords the customer a saving of \$1.00 over the cost of pieces purchased separately. For example, set illustrated sells for \$8.00. Pen and pencil purchased separately would cost \$9.00. The price range is \$7.50 to \$14.00.

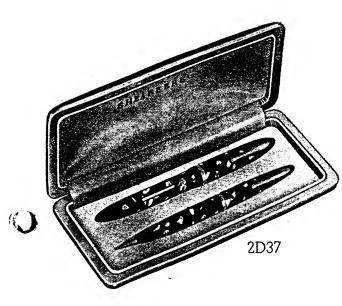

S2C22—Sheaffer's two-piece ensembles at \$3.95 and \$5.00 are ex-\$3.95 and \$5.00 are exceptional values. These popular priced sets have a special appeal to the student trade and sell readily to those wanting a fine value for a small investment. Set illustrated is No. \$2C22, GOLDEN BROWN, \$5.00.

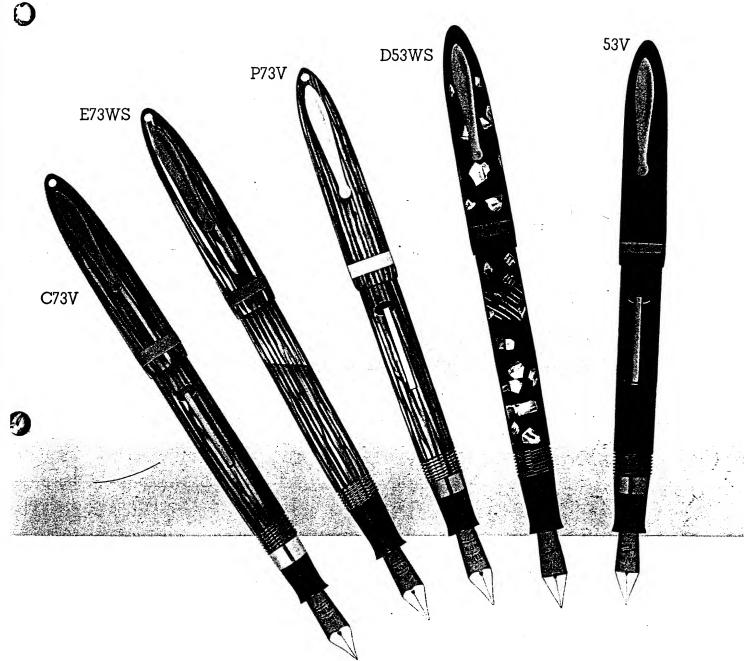

S2P80

The First Lady

These are the pens most preferred for feminine use. "First Lady" Sheaffer's are particularly designed with plenty of eye appeal for ladies' use. Just the right size for clipping to the inner pocket of Milady's handbag. Note the slender shape, the graceful streamlined tapered design, and the perfect proportion which each part of the pen bears to the whole. For details on "First Lady" ensembles, see Pages 9 and 10. Identical values in VISULATED or visible barrel types.

Balance and Junior Pens

Propel-Repel-Expel Pencils to Match

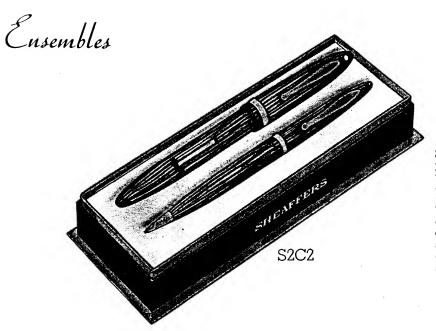

For every Sheaffer pen there is a pencil to match. The price range is from \$2.00 to \$5.00, and whenever a pencil is sold together with a pen, an attractive ensemble presentation case is provided for the matched set — see Pages 9, 10 and 11. In addition there is the sturdy Sheaffer Utility pencil at \$1.00. All Sheaffer pencils are famous for their propel-repel-expel mechanisms in which the finest materials are used. The construction is exceptionally sturdy and is entirely without the use of solder. They are built to last a lifetime.

De Luxe

On this page you will find codes, symbol numbers and prices for all Sheaffer De-Luxe Ensembles with which this beautiful presentation case of satin and gold, or satin and chrome, is furnished. The box is gold trimmed to match gold trimmed sets; chrome trimmed to match chrome trimmed sets.

Sheaffer's line of \$5.00 matched pen and pencil Ensembles are outstanding values. In the long length the pen retails at \$3.50, pencil at \$3.00, making the value of the pieces purchased separately \$6.50. There is, therefore, a fine saving to your customer buying the complete set at \$5.00. In the "V" size, the pen is \$3.50 purchased alone; the pencil \$2.50.

SAVE

Recommend SKRIP, Successor-to-Ink, for all fountain pen and general use. It takes six gallons of fluid to make one gallon of SKRIP at much greater cost than ordinary writing fluid. By distillation, all chances of molding and sediment formation is eliminated and permanency is increased, making it the finest and most satisfactory writing fluid produced. SKRIP keeps both steel pens and fountain pens in better condition.

about

4 OZ. 25c

PINT 85 QUART \$1.2

GALLON \$4.80

Colors:

- There are two kinds of SKRIP, Permanent and Washable. Both types are plainly labeled. SKRIP in permanent colors for all business records comes in Blue-Black, Royal Blue, Jet Black and Red. SKRIP in washable colors for school and home (washes easily from clothing, linens, rugs, and furniture) comes in Black, Blue, Green, Purple and Brown.
- Permanent Red SKRIP is the only permanent, sediment-free red writing fluid produced. Point out to your customers that records of which one-half are permanent and the other half not, are not satisfactory. SKRIP will make them 100% permanent. It flows freely, dries quickly, spreads evenly and does not clog.
- SKRIP is designed primarily for perfect writing satisfaction under all conditions. No property, however desirable, has been adhieved at the expense of other properties equally desirable. It is a perfect combination of all the properties needed for complete writing satisfaction.

PENCIL Skib

List

Pencil-SKRIP, Successor to Leads, are the finest leads you can sell your customer. They are stronger, smoother, blacker than ordinary leads. They are wax impregnated, not merely wax coated. This makes them smoother to write with, more intense in color and stronger.

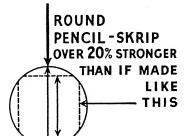

Pencil-SKRIP leads are round in shape, not square. This makes them longer lasting because they have more material in them. It also makes them stronger, as the diagram on this page shows.

In spite of these superiorities, Sheaffer packs 25 sticks of black leads in a beautiful bakelite container at 15c. This makes Pencil-SKRIP an exceptional retail value.

Remember, Sheaffer's Pencil-SKRIP fits practically all mechanical pencils of which there are millions in use. Displayed on your counter they will sell readily to the millions of Sheaffer pencil users who prefer Sheaffer leads in their Sheaffer pencils. Always display Sheaffer Pencil-SKRIP and Sheaffer's Erasers prominently on your counter, because they have a powerful reminder value and help to create extra sales for you. Always suggest Pencil-SKRIP and Sheaffer Erasers with each sale of a pen, pencil, ensemble set or SKRIP, Successor to Ink.

Deal With The Leader and Be One

This catalog includes all Sheaffer developments down to date. The merchandise shown includes Sheaffer's famous "7" features:

1. Lifetime Guarantee. 2. Two-way platinum-channeled Feathertouch point. 3. Streamlined Balance design. 4. Visible Skrip supply in both lever and vacuum type pens. 5. One-stroke filling, emptying, cleaning. 6. Large capacity. Pens take in over 400% more Skrip per stroke than multiple-stroke pens. 7. Dryproof, air-sealed points in both desk and pocket pens.

In addition to these improvements, some new developments are presented for the first time in a Sheaffer catalog. These are:

- l. The new gold or sterling capped ensembles. Gold and precious metals are back in vogue. The experience of the past has shown conclusively, however, that a complete metal pen is not practicable. So Sheaffer has introduced a pen which gives the beauty of natural gold or silver in the pocket, and through the use of Radite on the lower half of the pen, the right writing "feel" when the pen is in use. Ordinary metal constructions are easily dented. This difficulty is overcome in Sheaffer's because of a sturdy interior metal sleeve inside the caps of both pens and pencils. Thus these flashing new ensembles have a beauty and practicability not otherwise obtainable.
- 2. Streamlined color designs. Sheaffer now offers in a full color range the extremely popular streamlined color designs consisting of narrow lengthwise bands of the main color shot through with narrow lengthwise pearl strata. Golden Brown is a warm neutral tone shot through with narrow lengthwise bands of a gleaming golden tone. The new Marine Green, shown for the first time, is the same effect in a rich green tone. Rose-Glow is a warmer Pastel Maroon treated the same way. The Grey Pearl is really a silver pearl. These color designs are such that they emphasize the streamlined Balance of Sheaffer's pens and pencils. They run through the full line so that dealers may trade up from one price range to another without having to change the customer's mind on color.
- An entirely new Dry-Proof Desk Set Line for the 1937 fall and holiday trade. There are over 100 numbers presented at \$5.00

and up, complete with pens, comprising everything the most exacting clientele might desire.

Quality goods sell readily because they do much of the selling themselves. Sheaffer values can neither be concealed nor imitated successfully. When a customer sees a Sheaffer, he recognizes it as super-fine, and when he tries it, he senses the Balance and "feel" that convinces him it is the pen for him to buy.

Reference to this catalog will keep your stock well rounded. You are urged to keep your stock complete. If a customer concludes today that your stock is small or incomplete, then later when he is buying he will surely go where he can select from full stocks.

Sheaffer advertising is geared to the dealer's merchandising at the sales counter. Sheaffer never loses sight of the fact that it is detrimental to dealer profit to trade down — that a small, quick flurry of profit gained on a tradedown never can equal the steady, mounting profit of trading-up. Sheaffer also realizes that people's taste and buying power changes with income. Thus, if you could spread the past five years of Sheaffer's advertising before you, you would be both surprised and pleased to note how Sheaffer's take advantage of the public's buying mood throughout every change in the entire period.

Sales success cannot be denied! Sheaffer's have what the people want! Every week thousands of pens are sold without profit to dealers — but not Sheaffer's! In these times, the wise merchant will tie to Sheaffer, the line that protects price and profit without fear or let-up — will utilize Sheaffer's Merit System and other store-tested plans and promotions that are earning greater profits daily for Sheaffer dealers.

W. A. SHEAFFER PEN COMPANY

FORT MADISON, IOWA, U.S. A.

NEW YORK - CHICAGO - SAN FRANCISCO

Printed in U. S. A. No. 266

SHEAFFER'S FRANGEISE

Sheaffer's distribution is principally limited to the jewelry. drug, stationery and those departments of department store trade, and Sheaffer's is entirely dependent upon the retailer. For the retailers' benefit and protection, Sheaffer's system of Profit-Sharing Commissions has been worked out.

This is a fair system which assures those dealers who feature Sheaffer merchandise and thereby obtain larger sales, greater remuneration in the form of more profit.

Profit-Sharing Commissions for Volume Purchases are paid as follows:

Commi	78%	10%	124%	16 2-3%
t-Sharing				
ses Profit-Sharing Commission				
			()) -	
90			•	*.

Yearly Net Purchases	\$ 350 to \$499	00 to \$749	50 to \$99	00 00

dise, which consists of fountain pens, mechanical pencils and desk sets bearing the Sheaffer trademark purchased at a maximum basic trade discount of 40% from list price. The commission is paid when and if earned, in merchandise at net price, or by credit memorandum to apply on subsequent purchases and not on current account. The normal period for computing Profit-Sharing commissions is from January 1 to December 31 each year. If maximum rebate is earned prior to the end of a year, it will be paid quarter-The above commissions are paid on all Primary Line merchanly should a dealer desire and request it.

for the following year - - so that all of his shipments including the A dealer who earns a \$50 rebate on \$500 purchases will, at the end of the year, or as soon as his account has been paid, receive a credit memorandum for the \$50. This \$50, to be taken out in merchandise, applies on the volume purchases of the primary line year's volume for purpose of rebate. This enables the dealer on this volume of business, to earn an 85% mark-up on every piece of \$50 for which he does not have to pay, figure in his following Sheaffer merchandise which comes into his store.

To obtain the 40% basic trade discount, a new account is required to purchase \$50 or more net of primary line merchandise as an opening assortment. This is considered to be a minimum small town requirement to insure sufficient stock to accommodate the needs of the community. In

yger towns and cities the requirement decounts on Skrip, Skrip-Grip and Lastik are entirely separate. from sir d necessarily be increased.
